and Anchors

Indoor
Mount

Hook
(for Indoor Mount)

2 / PRODUCT OVERVIEW

eufyCam 2 Pro

1. Photosensitive sensor
2. Camera lens
3. Motion sensor
4. Microphone
5. LED indicator

6. Sync button
7. USB charging port
8. Screw hole

3 / ADDING eufyCam 2 Pro

Adding eufyCam 2 Pro to Your Existing System

On eufy Security app, follow the onscreen instructions to add your eufy devices. Choose **Add Device**, then select **eufyCam 2 Pro** to add it to your system.

4 / MOUNTING THE CAMERA

Find a Good Mounting Spot

To find a spot to mount eufyCam 2 Pro, you need to test wireless signal strength.

- ① Open the eufy Security app, go to **Camera Settings > Mounting Guide**.
- ② To test the wireless signal strength, take your camera and phone to the location where you want to mount the camera.
- ③ Move the camera as close to the HomeBase 2 as possible if the wireless.

Select Height and Location

Hang eufyCam 2 Pro 7-10 ft (2-3 m) above the ground. This height maximizes the detection range of the motion sensor of eufyCam 2 Pro. Avoid placing eufyCam 2 Pro under direct sunlight.

Mount the camera

The camera can be mounted both indoors and outdoors.

1. Turn the knob of the mounting bracket clockwise to loosen and disassemble it.

2. Drill holes with a 15/64 inch (5.95mm) drill bit, then insert the anchors into the holes; anchors are necessary for walls that are made out of hard materials such as concrete, brick, or stucco.

3. Firmly screw the base of the mounting bracket onto the wall. Fasten the ball knob of the bracket to the base of the bracket.

4. Tighten eufyCam 2 Pro to the mounting bracket and adjust the viewing angle by checking the live stream feed in the eufy Security app.

Tips:

For troubleshooting, check Help on the eufy Security App. Refer to App page for LED indicator status.

Mount the Camera Indoors

Stick the camera directly to any flat surface made out of iron. Or you can use the indoor mount to mount the camera:

1. Drill a hole. Use the included anchor if it's drywall and fasten the hook.

2. Hang the indoor mount on the hook.

3. Attach eufyCam 2 Pro to the indoor mount and adjust the viewing angle.

5 / CHARGING

eufyCam 2 Pro

Charge eufyCam 2 Pro

Method 1

Method 2

LED indication	Charging: Steady blue
	Fully charged: Off
Charging time	12 hours

For troubleshooting, check Help on the eufy Security app.

6 / NOTICE

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (1) Reorient or relocate the receiving antenna. (2) Increase the separation between the equipment and receiver. (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. (4) Consult the dealer or an experienced radio/TV technician for help.

FCC Radio Frequency Exposure Statement

The device has been evaluated to meet general RF exposure requirements. The device can be used in fixed/mobile exposure condition. The minimum separation distance is 20 cm.

Notice: Shielded cables

All connections to other computing devices must be made using shielded cables to maintain compliance with FCC regulations.

FCC ID: 2AOKB-T8114

The following importer is the responsible party.
Company Name: POWER MOBILE LIFE, LLC
Address: 400 108th Ave NE Ste 400, Bellevue, WA 98004-5541
Telephone: 1-800-988-7973

 This product complies with the radio interference requirements of the European Community.

Declaration of Conformity

Hereby, Anker Innovations Limited declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU. For the declaration of conformity, visit the Web site www.eufylife.com. Do not use the Device in the environment at too high or too low temperature, never expose the Device under strong sunshine or too wet environment.

The suitable temperature for eufyCam 2 Pro and accessories is -20°C-50°C.

When charging, please place the device in an environment that has a normal room temperature and good ventilation.

It is recommended to charge the device in an environment with a temperature that ranges from 5°C~25°C.

RF exposure information: The Maximum Permissible Exposure (MPE) level has been calculated based on a distance of $d=20$ cm between the device and the human body. To maintain compliance with RF exposure requirement, use product that maintain a 20cm distance between the device and human body.

CAUTION RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

Wi-Fi Operating Frequency
Range: 2412~2472MHz ; Wi-Fi Max
Output Power: 17.47 dBm
