IMPORTANT INFORMATION

Dear Sharp customer

Thank you for your purchase of the SHARP LCD colour TV product. To ensure safety and many years of trouble-free operation of your product, please read the Important Safety Precautions carefully before using this product.

WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

 	CAUTION RISK OF ELECTRIC SHOCK DO NOT OPEN
CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.	

The lightning flash with arrow-head symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within a triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

CAUTION: TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT, FULLY INSERT.

EN Important1

Precautions For Daily Use

Observe the following items

Maintenance of the cabinet

- When cleaning the cabinet, use a soft cloth (made of cotton, floss, etc.) to clean gently.
- Do not use a dry or damp rag mixed with chemicals, as this could cause the ingredients of the cabinet body to deteriorate or crack.
- Be careful not to use an abrasive cloth for cleaning or clean with excessive force, as this could scratch the surface of the cabinet.
- If the cabinet is greatly soiled, clean with a soft cloth (made of cotton, floss, etc.) soaked with a small amount of diluted neutral detergent and wrung out, and then clean with a soft dry cloth.
- Solvents such as benzene or thinner could cause the cabinet to deteriorate, or make its coating come off. Therefore do not use such solvents to clean the cabinet.
- Because plasticizer is included in the plastics, deterioration or the coating peeling off could occur when the cabinet comes into contact with some substances. Therefore keep it away from volatile substances such as insecticide. In addition, do not let it come into contact with objects made of rubber, resin, etc. for a long time.

Maintenance of the LCD panel

- Before cleaning the LCD panel, be sure to turn off the TV set and unplug the power cord from the outlet.
- When cleaning the LCD panel, use a dry and soft cloth (made of cotton, floss, etc.) to clean the surface of the LCD panel gently. For protecting the LCD panel, do not clean with a dirty cloth, detergent, or a dry or damp rag mixed with chemicals, as this could cause peeling of the panel surface.
- Be careful not to clean with an abrasive cloth or with excessive force, as this could cause the panel surface to be scratched.
- If the LCD panel is greatly soiled, clean it gently with a soft cloth (made of cotton, floss, etc.) soaked with a small amount of water (Do not clean with excessive force, so as to avoid the scratch of the panel surface).
- If dust sticks on the surface of the LCD panel, clean the panel with a commercially available cleaning brush (anti-static brush).

Important safety precautions

Caring for the cabinet

- Use a soft cloth (cotton, flannel, etc.) and gently wipe the surface of the cabinet.
- Using a chemical cloth (wet/dry sheet type cloth, etc.) may deform the components of the main unit cabinet or cause cracking.
- Wiping with a hard cloth or using strong force may scratch the surface of the cabinet.
- If the cabinet is very dirty, wipe with a soft cloth (cotton, flannel, etc.) soaked in neutral detergent diluted with water and thoroughly wrung out, and then wipe with a soft dry cloth.
- The cabinet is primarily made of plastic. Avoid using benzene, thinner, and other solvents, as these may deform the cabinet and cause the paint to peel off.
- Do not apply insecticides or other volatile liquids.
- Also, do not allow the cabinet to remain in contact with rubber or vinyl products for a long period of time. Plasticizers inside the plastic may cause the cabinet to deform and cause the paint to peel off.
- When relocating the product placed on a cart, it must be moved with utmost care. Sudden stops, excessive force and uneven floor surface can cause the product to fall from the cart.

Caring for the front panel

- Turn off the main power and unplug the AC cord from the wall outlet before handling.
- Gently wipe the surface of the front panel with a soft cloth (cotton, flannel, etc.).
- To protect the front panel, do not use a dirty cloth, liquid cleaners, or a chemical cloth (wet/dry sheet type cloth, etc.). This may damage the surface of the front panel.
- Wiping with a hard cloth or using strong force may scratch the surface of the front panel.
- Use a soft damp cloth to gently wipe the front panel when it is really dirty (It may scratch the surface of the front panel when wiped strongly).
- If the front panel is dusty, use an anti-static brush, which is commercially available, to clean it.
- Water and moisture — Do not use the product near water, such as bathtub, washbasin, kitchen sink, laundry tub, swimming pool and in a wet basement.

Introduction

- Do not place vases or any other water-filled containers on this product. The water may spill onto the product causing fire or electric shock.

- Stand — Do not place the product on an unstable cart, stand, tripod or table. Doing so can cause the product to fall, resulting in serious personal injuries as well as damage to the product. Use only a cart, stand, tripod, bracket or table recommended by the manufacturer or sold with the product. When mounting the product on a wall, be sure to follow the manufacturer's instructions. Use only the mounting hardware recommended by the manufacturer.

- Ventilation — The vents and other openings in the cabinet are designed for ventilation. Do not cover or block these vents and openings since insufficient ventilation can cause overheating and/or shorten the life of the product. Do not place the product on a bed, sofa, rug or other similar surface, since they can block ventilation openings. This product is not designed for built-in installation; do not place the product in an enclosed place such as a bookcase or rack, unless proper ventilation is provided or the manufacturer's instructions are followed.

- In case the product is dropped and the cabinet is damaged, be sure to turn off the power of the product, and unplug the power cord. If you continue to use the product, it may cause fire or electric shock. Contact your dealer.

- Do not open the rear cover of the cabinet to reconstruct the circuits. There exists high voltage within the cabinet and it may cause electric shock and injury. If maintenance is required, contact your dealer.

- The LCD panel used in this product is made of glass. Therefore, it can break when the product is struck forcefully or with a sharp object. If the LCD panel is broken, be careful not to be injured by broken glass.

- Heat sources — Keep the product away from heat sources such as radiators, heaters, stoves and other heat-generating products (including amplifiers).

Do not install the TV in a location in which it will be subject to water drops such as underneath an air conditioning unit or in the vicinity of a humidifier

- Water drops falling onto the TV and water entering inside it may result in fire, electric shock, or malfunctions. We recommend that you install the TV at least 1 m away from the outlet of an air conditioner.

- To prevent fire, never place any type of candle or naked flames on the top or near the TV set.

- To prevent fire or shock hazard, do not place the AC power cord under the TV set or other heavy items.

- Do not place heavy objects on this product or stand on it. Doing so could cause injury if the product overturns. Take special care near children and pets.

- Unplug the power cord before you move the TV set. If not unplugged beforehand, the power cord may become damaged and cause electric shock.

The LCD panel is a very high technology product with 1,049,088 (Only for 2T-C32BG1X/2T-C32BG1I/2T-C32BE1T) / 2,073,600 (Only for 2T-C40BG1X/2T-C42BG1X/2T-C42BG1I/2T-C42BG8X/2T-C42BE1T/2T-C50BG1X/2T-C50BG1I) pixels, giving you fine picture details. Due to the very large number of pixels, occasionally a few non-active pixels may appear on the screen as a fixed point of blue, green, red or yellow. This is within product specifications and does not constitute a fault.

Precautions when transporting the TV

- When transporting the TV, never carry it by holding or otherwise putting pressure onto the display. Be sure to always carry the TV by two or more people holding it with two hands — one hand on each side of the TV.

If a television is not positioned in a sufficiently stable location, it can be potentially hazardous due to falling. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

- Using cabinets or stands recommended by the manufacturer of the television.
- Only using furniture that can safely support the television.
- Ensuring the television is not overhanging the edge of the supporting furniture.
- Not placing the television on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television to a suitable support.
- Not standing the televisions on cloth or other materials placed between the television and supporting furniture.
- Educating children about the dangers of climbing on furniture to reach the television or its controls.
- Do not display a still picture for a long time, as this could cause an afterimage to remain.
- Install the product on the place where the AC cord can be unplugged easily from the AC outlet, or from the AC INPUT terminal on the rear of the product.

NOTE

- The above are pictures for reference only; the actual item might be different.

What Android TV can do

**Google Play Store**

Google Play Store is Google's official store and portal for Android™ apps, games and other content for your Android-powered phone, tablet or Android TV device.

[\(See page 4-1.\)](#)

**Netflix**

You can video streaming services to watch internet content. The available services vary depending on your country and region. You can launch this service by selecting their tiles in the HOME menu.

Unique feature from SHARP

**Azan**

An app for Azan and islamic prayer times with accurate prayer time based on your current location.

[\(See page 4-3.\)](#)

Auto installation

When the TV is powered on for the first time after purchase, the initial auto installation wizard appears. Follow the menus and make the necessary settings one after another.

Confirm the following before turning on the power

- Is the antenna cable connected?
- Is the AC cord plugged in?

1 Press  (**JOG-KEY**) on the TV.

- The initial auto installation wizard appears.

2 Setting the OSD language.

Press $\wedge / \vee$ to select the desired language, and then press **ENTER**.

3 Press "Continue" to allow Android phone to setup TV.

- If select "Skip", the screen will jump to step 4.

4 Press $\wedge / \vee$ to select your Wi-Fi network.

- If select "Skip", the screen will jump to step 6.

5 Press $\wedge / \vee$ to sign in Google account.

6 Press $\wedge / \vee$ to select "Accept", "Terms of Service", "Privacy Policy" and "Play Terms of Service".

7 Press "Yes" or "No" to allow Google to use your device location.

8 Press "Yes" or "No" to set permission for Google to use your TV diagnosis and usage data.

- If Wi-Fi network is not connected, the description of Android TV screen will appear, and then press **ENTER**.

9 Press $\wedge / \vee$ to select desired applications, and then press **ENTER**. The description of Android TV screen will appear, and then press **ENTER**.

- This screen will not appear if Wi-Fi network is not connected.

10 Setting the country.

Press $\wedge / \vee$ to select your country or area, and then press **ENTER**.

NOTE

- Digital (DVB-T/T2) broadcasting cannot be viewed in the area where digital broadcasting is not yet launched.
- DTV concerned menu may not displayed in some country.
- Hong Kong digital TV channel setting. ([See page 2-1](#) and [2-2.](#))

11 Press $\wedge / \vee$ to start Channel scan.

12 Press $\wedge / \vee$ to view Sharp Terms of Use and Sharp Privacy Policy.

13 Select TV mode.

Press $\wedge / \vee$ to select where you will use this TV, and then press **ENTER**.

Home:

- "Home" mode is optimized for efficient energy usage for home use.
- If you plan to use this TV at home, please select "Yes".

Retail:

- "Retail" mode is optimized for store demo with fixed settings.
- "Retail" mode is for store demo only and setting are not saved. Please select "Yes" to proceed.

NOTE

- Retail: A demonstration image will be displayed after initial auto installation is completed. If you have chosen "Retail" by mistake, go to " (HOME)" > "Settings" > "Device Preferences" > "Retail Mode" > "Continue" > "Off".

14 Press "Start" or "Skip" to RC setting.

- Internet connection enables you to use voice search by microphone key on the RC.

15 The description of Netflix screen will appear.

- Press "Next" to finish Netflix setup procedure.
- Press "Setup Network" if Wi-Fi network is not connected.

16 Press $\wedge / \vee$ to select "Off" or "On" to enable the Chromecast built-in function.

17 Initial setup has finished.

Software Updates via Over-The-Air (OTA)

To search for new software updates

Refer to " (HOME)" > "Settings" > "Device Preferences" > "About" > "System update".

NOTE

- Make sure your TV is connected to the internet when performing software updates via OTA.
- After finished downloading, please allow some time to apply the installed updates.
- During installation, please do not perform any operations, including power off or unplug your TV.
- Software updates performance is depending on internet connection.

OAD

Refer to "TOOLS" > "TV options" > "Advanced options" > "OAD".

- This function is for automatically download the data for the version update software over digital broadcasts when the "Auto download" is set to "Yes".
- To download, follow the instructions when the download message appears during a digital broadcast.
- Once the software upgrade is done, the TV will automatically go to standby state with Red LED.

CAUTION

- **Do not disconnect the AC cord when the software upgrade is in progress, as this may cause the upgrade to fail. If problem arises ask a qualified service personnel before the software upgrade period expires.**

Software License

Refer to " (HOME)" > "Settings" > "Channel" > "Open source licenses".

You can read the software licenses in the on-screen display menu.

Software composition

Switching the digital audio format (DTV only)

- The sound mode screen disappears in six seconds.
- Selectable items vary depending on the received broadcasts.
- The audio description sound is selected depending on the main audio.

Switching the analogue audio format

You can switch between multiple audio modes when watching a multiple audio or stereo broadcast programme.

In the NICAM TV broadcasts

When receiving a stereo signal

When receiving a bilingual signal

When receiving a monaural signal

In the TV mode of A2 TV broadcasts

When receiving a stereo signal

When receiving a bilingual signal

When receiving a monaural signal

In the BTSC broadcasts (Philippines only)

When receiving a SAP STEREO signal

When receiving a stereo signal

When receiving a SAP signal

Channel settings-How to operate Parental controls

Refer to " (HOME)" > "Settings" > "Channel" > "Parental controls".

This function allows TV channels to be restricted. It prevents children from watching violent or sexual scenes that may be considered inappropriate. If you have already set the password, enter it here.

- **Channels blocked**
You can block the viewing of any selected channel.
- **Inputs blocked**
You can block the viewing of any selected input.
- **Change PIN**
You can set and change the Password by using **0-9**.

NOTE

- As a precautionary measure, make a note of your Password and keep it in a familiar place.
- PIN input is required when executing "Parental controls" screen. The default PIN is "1234".

- **Programme restrictions**

Used to enable or disable the parental control function. This function will not be selectable from the menu if you do not first configure your password.

Rating (Guaranteed by SHARP)

Singapore

G: Suitable for all ages.

PG: Suitable for all but parents should guide their young.

PG13: Suitable for persons aged 13 and above but parental guidance is advised for children below 13.

NC16: Suitable for persons aged 16 and above.

M18: Suitable for persons aged 18 and above.

R21: Suitable for adults aged 21 and above.

Thailand

P: Suitable for children kid 3-6 years.

C: Suitable for children kid 6-12 years.

G: Suitable for general audience.

PG13: Suitable for people aged 13 and above.

PG18: Suitable for people aged 18 and above. And parental guidance for children under 18.

R: Suitable for adult.

Rating (Not Guaranteed by SHARP)

This is used in countries other than Singapore and Thailand.

Teletext settings (DTV only) (Except Taiwan and Hong Kong)

Refer to "TOOLS" > "TV options" > "Advanced options" > "Teletext".

If you set the language of the initial page (this page is displayed for the first time after pressing ) for teletext in DTV mode, it will start from the selected language page.

Select from the following available settings.

- [Digital teletext language](#)
- [Decoding page language](#)

NOTE

- This function is available for teletext in DTV mode. This is not available for teletext in ATV or external input mode.
- If the initial teletext page of the selected language in this function is not included in a received broadcast, the default initial page will be displayed.

Postal code (Indonesia only)

Refer to "TOOLS" > "TV options" > "Advanced options" > "Postal code".

This function enable you to select your local postal code.

NOTE

- "Postal code" will be appear only when country "Indonesia" is selected.

System information (Except Hong Kong)

Refer to "TOOLS" > "TV options" > "Advanced options" > "System information".

Check for system updates and view various information of signal.

Network and Internet

Connecting to the Internet

To configure the network settings in order to enjoy streaming content and internet applications. These settings can be configured from " (HOME)" > "Settings" > "Network & internet".

NOTE

- When an Internet connection is made, LAN and wireless connection cannot be used at the same time. Use only one of the connection types.

Using Wi-Fi

This TV is equipped with a wireless LAN function.

For a wireless LAN connection, you must use wireless setup to connect the access point and TV.

Wow (wake on wireless network)

Enable the TV to be started by a signal over a Wi-Fi.

NOTE

- Standby power consumption will be increase when Wow is turned ON.

Using LAN

Using a LAN cable (commercially available) to connect the LAN terminal on the TV to your broadband router (commercially available).

Wol (wake on LAN)

Enable the TV to be started by a signal over a LAN.

NOTE

- Standby power consumption will be increase when Wol is turned ON.

Network and Internet (Continue)

NOTE

- This TV has a built-in wireless LAN function. Using a separate wireless USB LAN adapter may result in radio communications that do not comply with regulations on radio communications. Therefore, do not use a separate wireless LAN adapter.
- A wireless LAN connection and performance cannot be guaranteed for all residential environments. In the following cases, the wireless LAN signal may be poor or drop, or the connection speed may become slower.
 - When used in buildings made with concrete, reinforced steel, or metal
 - When placed near objects that obstruct the signal
 - When used with other wireless devices that emit the same frequency
 - When used in the vicinity of microwave ovens and other devices that emit a magnetic field, electrostatic charge, or electromagnetic interference
- When there is significant interference in the 2.4-GHz frequency (such as from other wireless LAN devices, Bluetooth® devices, 2.4-GHz cordless telephones, and microwave ovens), it is recommended that you use a wireless LAN router/access point that supports IEEE802.11ac (5 GHz) and set the access point to transmit at 5 GHz. For setup details, see the operation manual of your access point.
- Operations cannot be guaranteed when used with access points that do not have Wi-Fi® certification.
- A wireless LAN router/access point is required to connect the TV to the Internet using a wireless LAN. See the operation manual of your access point for setup.
- If your access point is set to a stealth mode (that prevents detection by other devices), you may not be able to establish a connection. In this case, disable the stealth mode on the access point.
- A stable connection speed is required to play back streaming content. Use LAN connection if the wireless LAN speed is unstable.
- Before transferring to a third party or disposal, be sure to initialise the wireless LAN settings.
- Please follow the legislation in your country when using the wireless LAN outdoors.
- If you have failed to connect to the Internet in the above operation, then an error message will appear. In this case, press  (HOME) to exit from the connected TV feature to make changes to the network settings.
- If you still cannot connect to the Internet, please consult your Internet service provider or telephone company.
- You cannot configure the settings from " (HOME)" > "Settings" > "Network & internet" while using an application. If you must configure your "Network" settings, press the  (HOME) key to exit the function.

Network and Internet (Continue)

Chromecast built-in compatible devices

When you connect a device such as a Chromecast built-in compatible smartphone or tablet to this TV, you can enjoy video and audio from the device on the TV's large screen and speakers.

NOTE

- When the TV is turned off or the connection is ended on the device, you must connect the device again.
- For details about the operation of the Chromecast built-in compatible device, check the manual for that device.

Audio Devices

HDMI Input (Except Hong Kong)

Speaker select ARC

Refer to " (HOME)" > "Settings" > "Device Preferences" > "Sound" > "Speaker select ARC".

You can select to listen to the TV sound only from the LINK-compatible audio system.

- [Internal Speakers](#)
- [External Devices](#)

Inputs

Refer to " (HOME)" > "Settings" > "Device Preferences" > "Inputs".

Change the label for an input terminal, and switch between HDMI CEC Control Settings.

Digital Audio Output (Except Hong Kong)

Refer to " (HOME)" > "Settings" > "Device Preferences" > "Sound" > "Digital Audio Output".

This function allows you to select the digital audio signal type.

- [Auto](#)
- [Bypass](#)
- [PCM](#)
- [Dolby Digital Plus](#)
- [Dolby Digital](#)

Bluetooth setup

This feature enable a TV to connect with other Bluetooth devices via Bluetooth connection.

NOTE

- When you use the Bluetooth device with your TV for the first time, you must make pairing between the device and the TV. Once the pairing is correctly carried out, the Bluetooth device will be registered on the TV.
- Connectivity and reception range may depend on condition, environment, and distance of Bluetooth devices.
- Sound quality and compatibility are depending on Bluetooth devices.
- The Bluetooth format only supports HID, A2DP and AVRCP.

Bluetooth devices

You can add, delete or select Bluetooth devices.

Connection/Selection Procedure

- 1 Turn the Bluetooth device on and put it in pairing mode.
To put your Bluetooth device in pairing mode, refer to the operation manual of the device.
- 2 Refer to " (HOME)" > "Settings" > "Remotes & Accessories" > "Add accessory" to put the TV in pairing mode.
A list of available Bluetooth device will be displayed.
- 3 Select the desired device from the list, then follow the on screen display instruction.
If you are prompted to enter a password, refer to the operation manual of the device.
After pairing is completed, the device connects to the TV.

NOTE

- To pair the remote control unit with the TV, please hold **CH**  and  for 10 seconds. Wait for about 1 minute before pairing.

USB

Preparation

You can connect the TV to a USB memory device and USB hard drive to enjoy viewing pictures, listening to music, and watching videos.

NOTE

- Depending on the USB memory device/USB hard drive, the TV may not be able to recognise the recorded data.
- It may take time to read the recorded data if the USB memory device/USB hard drive contains many files or folders.
- Use only alphanumeric characters for naming files.
- File names (may vary depending on character set) may not be displayed.

Connecting a USB Memory Device/USB Hard Drive

Insert the USB memory device with recorded photos, music or videos into the USB 1 or USB 2 terminal on the TV.

- When connecting a USB hard drive, be sure to use a hard drive with an AC adapter.
- Do not remove a USB memory device from the TV while transferring files, using the slide show function, or switching screens, or before you exit "MultiMediaPlayer".
- Do not insert and remove a USB memory device/USB hard drive to and from the TV repeatedly.
- When using a card reader, be sure to insert a USB memory device first.

CAUTION

- **Do not use a USB extension cable when connecting a USB memory device to the USB terminal on the TV.**
- **Using a USB extension cable with the USB memory device may prevent the TV from performing correctly.**

USB (Continue)

Selecting the Folders to Play Back

- To play back data on a USB memory device insert the USB memory device on the TV.
- 1 Press " (HOME)" > "Apps" > "MultiMediaPlayer" to open the Playback screen.
 - 2 Press  /  to select "Video", "Photo", "Audio" or "Text", and then press **ENTER**.
 - 3 Press  /  (or  / ) to select the drive/server where you want to find your file, and then press **ENTER**. (Only can select if more than one USB input.)
 - 4 Press  /  to select the desired folder, and then press **ENTER**.

NOTE

- USB only support device up to DC5V 1.5A.
- (Hong Kong only)
- USB 1 support device up to DC5V 0.5A.
 - USB 2 support device up to DC5V 1.5A.

Last memory

Press ^ / v to select "Off" or "Time", and then press ENTER.

The Google Assistant or Google Search

You may ask questions and complete tasks on your TV.

- Press  (**The Google Assistant or Google Search**) /  (**Voice**) button on the remote control.
- Search with your voice.

NOTE

- The Google Assistant is not available in certain languages and countries. Availability of services varies by country and language.

Google Play Store

You may download apps from the Google Play Store on the TV, just like you do with smartphones and tablets.

To install app

- Refer to " (HOME)" > "Google Play Store" app and select an app that you want to download and then the app will start downloading.
- After downloading, the app is automatically installed and added. The icon will appear in the Apps screen, allowing you to launch it.

To uninstall app

Refer to " (HOME)" > "Settings" > "Apps" > "See all apps" and select an app to be deleted and then uninstall the app.

NOTE

- We recommend that you create a Google Account on a computer or mobile device.
- You can only download apps that are compatible with the TVs. It may differ from apps for smartphones or tablets.
- An internet connection and Google Account are required to download apps from the Google Play Store.

Google Account setting

Accounts & sign-in

Refer to " (HOME)" > "Settings" > "Accounts & sign-in".

To sign in, enter your email address and password.

Location

Refer to " (HOME)" > "Settings" > "Device Preferences" > "Location".

Configure the location settings.

Usage & Diagnostics

Refer to " (HOME)" > "Settings" > "Device Preferences" > "Usage & Diagnostics".

Automatically send diagnostic information to Google, like crash reports and usage data from your device, apps, and Chromecast built-in. This information won't be used to identify you. You can adjust these permissions at any time from device settings. Learn more at: g.co/AndroidUsageHelp and g.co/cast/device_stats.

Keyboard

When you are editing an input screen or specifying the Network settings used for accessing the Internet, enter text from the software keyboard.

The text you enter is displayed as you type it in.

While you are entering text, likely input conversion candidates are displayed based on what you typed in.

Erases the character string.

Enters a space.

Applies the entered information and closes the software keyboard.

Erases text one character at a time.

NOTE

- You can enter up to 128 characters for text.
- Some special characters or diacritics may not be available depending on where you enter the text.

Unique feature from SHARP

Azan - Prayer time

Refer to "  (HOME)" > "Settings" > "Apps" > "See all apps" > "Azan" app.

This feature could help a Muslim user to stay on top of Prayers with Azan by getting the accurate prayer times via notification. By configuring location and time zone, all five times prayer will be calculated according to the pointed calculation method.

- **Auto Setup:**
This function allows you to select the address configuration through pre-set data. (Country, Province, City)
- **Manual Setup:**
You can insert manually all informations in the screen.
- **Prayer Time Selection:**
You can select or deselect between 5 prayers for Azan notification.
- **Notification:**
You can select or deselect prayer time to notify and enable or disable prayer alert.
- **Info:**
A quick reference for you to get info on five times prayer after setup completed.
- **Demo:**
A demonstration video will be displayed when Azan is implemented.

NOTE

- The notification will be displayed on the screen for 5 minutes. After 5 minutes, the notification screen will be off automatically.
- The notification is based on the setting in Prayer time selection.
- Press **← (Back)** to off the notification screen immediately.
- The TV and Azan time information prior to internet connection.
- The TV time information from digital TV signal will be used if internet connection is not available.
- Deviation of the TV and Azan display time may occur due to improper digital broadcast standard.

Tools screen setting

Tools menu screen

1 Press **TOOLS** to display the TOOLS screen.

2 Press **< / >** to select the desired menu.

- *Channels - Add to my favorite, Program guide, New channels available
- TV options - Picture mode, Display mode, Speaker select ARC, Power control, Manual OAD, Advanced options, Settings

3 Press **TOOLS** to exit.

NOTE

* Except Hong Kong.

- Press **INPUT** to select "DTV-HK" to watch Hong Kong Digital TV. (Hong Kong only)

Picture Mode (Changing Pic. Quality)

Refer to " (HOME)" > "Settings" > "Device Preferences" > "Picture" > "Picture Mode".

Picture Mode gives you several viewing option to choose from to best match the surrounding environment of the TV, which can vary due to factors like room brightness, type of programme watched or the type of device connected.

- **User:**
Customise the picture setting.
- **Standard:**
Default picture settings for common users.
- **Dynamic:**
For a clear-cut image emphasising high contrast, useful for sports viewing.
- **Comfort Mode:**
Reduce the blue light of the TV.
- **Movie:**
Dim down the colour for long hour viewing.
- **Game:**
Lower latency for fast gaming illustration.
- **Super Eco:**
Reduce the backlight brightness to save power consumption.

Configuring Picture settings

Refer to " (HOME)" > "Settings" > "Device Preferences" > "Picture".

Adjusts the picture to your preference with the following picture settings.

Selected item	< button	> button
Backlight	The screen dims	The screen brightens
Brightness	For less brightness	For more brightness
Contrast	For less contrast	For more contrast
Colour	For less colour intensity	For more colour intensity
Tint	Skin tones become reddish	Skin tones become greenish
Sharpness	For less sharpness	For more sharpness

NOTE

- For resetting all Picture settings items to the factory preset values, press **^**/**v** to select "Reset to Default", press **ENTER**, press **<**/**>** to select "Yes", and then press **ENTER**.

Configure advanced Picture settings

Refer to " (HOME)" > "Settings" > "Device Preferences" > "Picture".

Gamma

Adjusts the differences of picture tones between bright parts and dark parts.

- [Dark](#)
- [Middle](#)
- [Bright](#)

Color Temp

For a better white balance, use colour temperature correction.

- [User:](#) White with bluish tone
- [Cool:](#)
- [Standard:](#)
- [Warm:](#) White with reddish tone
- [Red/Green/Blue Gain:](#) Adjusts the white balance by changing the value of each item.

**CMS (Colour Management System)**

Colour tone is managed using the six-colour adjustment setting.

- [Tint:](#)
This is a standard to adjust the colour either more reddish or more bluish in tone.
- [Colour:](#)
Increases or decreases the saturation of a selected colour.
- [Brightness:](#)
A higher value makes the image brighter.

NOTE

- A lower value makes the image darker.

HDR related settings

Refer to "TOOLS" > "Picture setting" > "Picture".

HDR (High Dynamic Range)

The HDR (High Dynamic Range) technology implements video image that is very similar to the image shown through human eyes by finely adjusting the contrast of the source.

- [Auto:](#)
Enable HDR effect for HDR source.
- [Off:](#)
Disable HDR effect for HDR source.

NOTE

- This feature only available in certain third party applications.

Unique Picture setting from SHARP

Refer to " (HOME)" > "Settings" > "Device Preferences" > "Picture" > "Advanced Video".

Digital Noise Reduction

Reduces noise on screen and produces a clearer video image.

- Off
- Low
- Medium
- High
- Auto

MPEG NR

This feature improves the quality of pictures by reducing the block noise and mosquito noise without compromising the picture resolution.

- Off
- Low
- Medium
- High

Active contrast

Automatically adjusts the image contrast according to the scene.

- Off
- Low
- Medium
- High

DI Film Mode

This function provides high-quality playback of images originally encoded at 24 frames/second, such as films.

- Off
- Auto

Input settings

Display mode

Refer to "TOOLS" > "TV options" > "Display mode".

This function changes the screen size.

The Display mode menu varies depending on the input source.

For 4:3 programmes

Automatic: Keeps the original aspect ratio based on source information and enlarge the picture as much as possible.

Full: For 16:9 squeeze pictures.

Wide screen: For viewing widescreen programmes. The top and bottom of the image is cropped.

Super zoom: Removes the black bars on the side of 4:3 broadcasts. There is minimal distortion.

Unscaled: Detects the resolution of the signal and displays an image with the same number of pixels on the screen.

4:3: Keeps the original aspect ratio in a full screen display.

Movie expand 14:9: For 14:9 letterbox pictures. Bars may appear on the top and bottom with some programmes.

Movie expand 16:9: For 16:9 letterbox pictures. Bars may appear on the top and bottom with some programmes.

NOTE

- Some items do not appear depending on the type of received signal.

PC Mode

Refer to "TOOLS" > "TV options" > "Settings" > "Device Preferences" > "Picture" > "Advanced Video" > "PC Mode".

Adjusts the picture when a PC is connected to the TV via HDMI.

- On
- Off

Audio Mode

Refer to " (HOME)" > "Settings" > "Device Preferences" > "Sound" > "Audio Mode".

This function allows you to convert the audio quality. Select from the following available settings.

- **User:**
Customise the sound setting.
- **Standard:**
Optimise sound quality for general content.
- **Dynamic:**
Enhances the treble and bass for a clearer sound.
- **Sports:**
Simulates the larger space of a stadium or other venue.
- **Movie:**
Optimise surround sound suitable for movie.
- **Music:**
Optimise sound for listening to music.
- **Clear:**
Makes voice clearer by lowering background sound.

Configuring Sound settings

Refer to " (HOME)" > "Settings" > "Device Preferences" > "Sound".

You can adjust the sound quality to your preference with the followings settings.

Selected item	< button	> button
Balance	Decrease audio from the right speaker	Decrease audio from the left speaker
Bass	For weaker bass	For stronger bass
Treble	For weaker treble	For stronger treble

NOTE

- For resetting all Sound settings items to the factory preset values, press $\wedge / \vee$ to select "Reset to Default", press **ENTER**, press $< / >$ to select "Yes", and then press **ENTER**.

Configure advanced Sound settings

Refer to " (HOME)" > "Settings" > "Device Preferences" > "Sound".

Sound Surround

The surround function produces Surround effect from the speakers.

- [On](#)
- [Off](#)

NOTE

- For some discs, setup may be required on your BD/DVD player. In this case, please refer to the operation manual of your BD/DVD player.

Equalizer Detail

This function allows you to change the sound quality.

- [120Hz](#)
- [500Hz](#)
- [1500Hz](#)
- [5000Hz](#)
- [10000Hz](#)

Unique Sound setting from SHARP

Refer to " (HOME)" > "Settings" > "Device Preferences" > "Sound".

Auto Volume

Different sound sources sometimes do not have the same loudness level, such as a programme and its commercial breaks. The Auto Volume reduces this problem by equalising it.

- [On](#)
- [Off](#)

Downmix Mode

You can select the multi-channel downmix method that is compatible with your stereo system.

- [Stereo](#)
- [Surround](#)

Sleep Timer

Refer to " (HOME)" > "Settings" > "Device Preferences" > "Power Control" > "Sleep Timer".

Allows you to set a time when the TV automatically switches to standby.
Set the Sleep Timer.

Off → 10 Minutes → 20 Minutes → 30 Minutes → 40 Minutes
 ↑ 120 Minutes ← 90 Minutes ← 60 Minutes ← 50 Minutes ←

Switch Off Timer

Refer to " (HOME)" > "Settings" > "Device Preferences" > "Power Control" > "Switch Off Timer".

You can use this function to automatically shut off the TV after pre-configured period of time.

No Signal Off

Refer to " (HOME)" > "Settings" > "Device Preferences" > "Power Control" > "No Signal Off".

When this function is enabled, the TV automatically shuts down if no signal is received for more than 5 to 60 minutes.

- Off
- 5 Minutes
- 10 Minutes
- 15 Minutes
- 30 Minutes
- 60 Minutes

NOTE

- When it is 5 minutes before the power shuts down, the remaining time will start to keep appearing every minute.
- When a TV programme finishes, this function may not operate.

Screen saver

Refer to " (HOME)" > "Settings" > "Device Preferences" > "Screen saver".

Set the Screen saver.

Storage

Refer to " (HOME)" > "Settings" > "Device Preferences" > "Storage".

View the memory usage status.

Accessibility

Refer to " (HOME)" > "Settings" > "Device Preferences" > "Accessibility".

Configure Audio Description, Visually Impaired, Hearing Impaired, Captions and High contrast text. Some of the Caption settings may not be applied.

Auto sleep

Refer to "TOOLS" > "TV options" > "Advanced options" > "Auto sleep" > "Never" to continue watching TV.

Select from the following available settings.

- [Never](#)
- [4 hours](#)
- [6 hours](#)
- [8 hours](#)

NOTE

- The default setting for "Auto sleep" is "Never".

Reset

Refer to " (HOME)" > "Settings" > "Device Preferences" > "Reset".

When you perform a reset, the TV will be returned to the factory preset values, and the Google Accounts will also be removed.

NOTE

- Your purchased apps will remain.

Troubleshooting

Problem	Possible Solution
No power.	- Check if you pressed  (POWER) on the remote control unit. - Is the AC cord disconnected? - Has the power been turned on?
Unit cannot be operated.	External influences such as lightning, static electricity, may cause improper operation. In this case, operate the unit after first turning off the power of the TV or unplugging the AC cord and replugging it in after 1 or 2 minutes.
Remote control unit does not operate.	- Is the equipment to be operated by the remote control unit set correctly? - Are batteries inserted with polarity (+, -) aligned? - Are batteries worn out? (Replace with new batteries.) - Are you using it under strong or fluorescent lighting? - Is a fluorescent light illuminated near the remote control sensor?
Picture is cut off/with sidebar screen.	Are Display Mode adjustments such as picture size made correctly? Page 5-4
Strange colour, light colour, or colour misalignment.	- Adjust the picture tone. Pages 5-1 to 5-4 - Is the room too bright? The picture may look dark in a room that is too bright.
Power is suddenly turned off.	- Is the sleep timer set? Page 7-1 - Check the power control settings. Page 7-1 - The unit's internal temperature has increased. Remove any objects blocking vent or clean.

Problem	Possible Solution
No picture.	- Is the connection to the device correct? - If the PC image is not displayed, check the following: - When connecting a laptop PC to the TV, check that display output mode of the PC is set to external monitor.
Picture quality of HD programmes is poor.	- To enjoy HD images from external equipment, you are required to set up HDMI connection. - If the programme content is not of HD quality, HD images cannot be displayed. Check that the programme you are viewing provides HD images. - The HD cable/satellite set-top box may need to be configured to output HD images via cable/satellite. - The cable/satellite broadcast may not support a signal resolution of 1080p.
The TV sometimes makes a cracking sound.	This is not a malfunction. This happens when the cabinet slightly expands and contracts according to change in temperature. This does not affect the TV's performance. Do not open the rear cover of the cabinet to reconstruct the circuits. There exists high voltage within the cabinet and it may cause electric shock and injury. If maintenance is required, contact your dealer.

Troubleshooting (Continue)

Problem	Possible Solution
No sound.	- Is the connection to the device correct? - Is the volume too low? - Have you pressed  (Mute) on the remote control unit? - Check the audio output of the connected external equipment. Is the volume too low or muted? - When external equipment is connected via an HDMI cable, you may need to configure the audio to be output through the HDMI cable. - When connecting a PC via an HDMI-certified cable, check the following: - Is the audio output of the PC configured correctly? Check the audio output settings and output audio format in Sound Properties on the PC. The audio formats compatible with this TV are PCM, Dolby Digital. With other formats, audio cannot be output.
Chromecast built-in image/ audio cannot be output to the TV.	Check if the smartphone/tablet is connected in the same Wi-Fi network.
Software updates via Over-The-Air (OTA) is not successful.	- Make sure your internet connection is working. - If the TV is connected to Internet, but no connection available, please disconnect the internet from your TV and then reconnect again.

Troubleshooting - Error Message

The example of an error message displayed on a screen	Possible Solution
No broadcast now.	- Check the antenna cable. Check that the antenna is correctly setup. - Check the broadcast time in the programme guide.
An incompatible audio signal has been received. Check the output device settings.	- This message is displayed when an audio format other than PCM, Dolby Digital is input. - Set the audio output format of connected external HDMI equipment to PCM, Dolby Digital. - Refer to the operation manual of the external equipment for setting details.
